Pickleball – Adult (18+) Open Play

The fastest-growing sport in the country, pickleball is a game that is “easy to start, but hard to stop.” Affiliated under Prescott Community Education, Prescott Pickleball Club promotes play times in an environment that encourages camaraderie, exercise, good sportsmanship, safe play, and fun.

Signing up will entitle you to membership to the Club. All new members will receive a welcome letter that provides all details needed. There are designated play times for Social/Rec Players, Advancing Players, Competitive Players, and Combined Levels.

We have a program to introduce beginners to the sport, by offering one FREE session. You can sign up for the free session at prescottwipball@gmail.com. The Club is continuing the Monday open play to the community 5:30-7:15pm that was introduced this summer.

Whoa, Nellie! The Outlaw King of the Wild Middle West

MN History Theatre
Whoa, Nellie! tells the whirlwind tale of a fake detective (and former child performer) whose countless criminal exploits and penchant for male attire made her a Minnesota media sensation in the late 1800s. This fast-paced, funny, and surprisingly moving new musical follows the path of “Nellie King,” the alias by which she was best known. Her reckless disregard for the law leads to disastrous ends and a powerful emotional reckoning. Along the way, her story brings to light historical realities around gender, addiction, mental health, and celebrity that still resonate today.

Instant Challenge Workshop

For Grades 1-8

Instant Challenges encourage students to work together to develop collaborative problem-solving strategies, as well as performance and improvisational techniques. They also help students learn how to think creatively and to evaluate and use different types of materials in innovative ways. There are three types of DI Instant Challenges: Performance-Based, Task-Based, and a combination of the two.

- The focus of a Performance-Based Instant Challenge is on working together to create and perform a theatrically-oriented solution. Your team may be asked to use words, language, conversation, and/or dramatic characterizations to solve the Challenge, or the solution may be nonverbal. You may also be asked to manipulate materials and/or use imaginary props in the solution.
- The focus of a Task-Based Instant Challenge is on working together to move, build, change, and/or protect something in order to complete a task. You may also be asked to communicate information.
- A Combination Instant Challenge includes both performance- and task-based elements.

One of the most important things is that there is no right or wrong way to solve an Instant Challenge. They are intentionally designed to have multiple solutions, which means you can do the same Instant Challenge over and over again to come up with new ways to solve it. This is a great class for any kids who like to think outside of the box and for those interested in participating in Destination Imagination next year. Min 4
